

## **2. INFO-BRIEF PLANETARE BEWEGUNG FÜR MUTTER ERDE**

### **2nd INFORMATION LETTER OF THE PLANETARY MOVEMENT FOR MOTHER EARTH**

### **2a CARTA INFORMATIVA DEL MOVIMIENTO PLANETARIO PARA LA PACHAMAMA**

November / November/ Noviembre 2010

#### **Contents**

1. Current article
2. Association: Board...Protocol...Finances
3. Further activities: Outreach work....Publications...Action
4. Global News:  
UN-Moratorium on Geo-Engineering...Appeal by Bertell....Events
5. Readinglist: in German
6. Mail: Experts for us...

#### **1. ARTIKEL / ARTICLE/ ARTÍCULO**

**Claudia von Werlhof: „What is Man doing – what Mother Nature? Planet Earth in Growing Distress...“**

**([www.pbme-online.org](http://www.pbme-online.org) in vier Sprachen/ in four languages/ en cuatro idiomas)**

#### **2. VEREIN / ASSOCIATION/ ASOCIACIÓN:**

**1. General Assembly of the Planetary Movement for Mother Earth, Innsbruck, 30.9.2010, present 9 Tyrolean members**

- Election and appointment of the board:  
Chairlady: Prof. Dr. Claudia von Werlhof  
Deputy Chairlady: Mag. Ursula Scheiber  
Secretary: MMag. Martin Haselwanter  
Treasurer: Mag. Simone Wörer
- Introduction of Rosalie Bertell's translator: „Planet Earth. The Latest Weapon of War“, Dietmar Fischler. The book is being complemented with current events and analyses.
- Discussion about prospective publishers. It was suggested to publish the book at 'oekom Verlag' in the series of works by Right Livelihood laureates. Contact with the publisher has been established. 2 Austrian and 1-2 German publishers are also interested. Now it is time for a decision.

- The first info letter was sent by post to 90 addresses that do not have internet access. It is requested to access our homepage through friends or relatives: [www.pbme-online.org](http://www.pbme-online.org)
- **Funds:** One large donation as well as several medium and smaller ones have reached us. The translator will be reimbursed sufficiently, he has received a part for the draft of his manuscript 2010 and will collect the rest after having completed his work. 3 further Contracts for Services have been made with Ursula Scheiber for the preparation of the member list, Simone Wörner for the founding work of the association and the financial administration, and Götz von Werlhof as the association's webmaster, for generation and management of the homepage à 10 € /hour. Other work has been contributed as donations, C. v. Werlhof accounts for the translation of her articles herself.
- **Attestation of donations** is being reviewed.

### 3.) WEITERE AKTIVITÄTEN /FURTHER ACTIVITIES/ DEMÁS ACTIVIDADES

- **Fundraising:** Translation secured!

Meanwhile the Gerda-Weiler Stiftung, Genevieve Vaughan und Maria Mies as well as the council of the interdisciplinary research-plattform „Politik-Religion-Kunst“ at the University of Innsbruck have sponsored the costs for the translation of Bertell's book. Concerning the translation of the book we are now off the hook Financially!

#### -Public Relations

- The internet channel [Nexworld.TV](http://Nexworld.TV) broadcasted 2 movies in September and October à 50 minutes: „Jan Gaspard im Gespräch mit C. v. Werlhof“

- a) „Das Ende des Patriarchats“ (The end of patriarchy), 28. Sept. 2010 (please don't be discouraged by the commercial that has nothing to do with the content of the conversation)
- b) „Haarp – die Erde als Waffe“ (Haarp, the earth as a weapon), 20. Okt. 2010. (Thereupon some who were interested contacted us).

#### -Lectures

- a) „Planetare Bewegung für Mutter Erde“, Kofra, München, C. v. Werlhof, 12.10. 2010. A realization took place about how far removed the women's movement is from this topic. Earth, Mother Nature, even the planet: way beyond the horizon...
- b) Contribution of the Cluster „Matriarchatsthese und Patriarchatskritik“ at the convention „Gewalt & Friede“ of the interdisciplinary research-plattform „Politik-Religion-Kunst“ at the University of Innsbruck, lecture by C. v. Werlhof: „Kann es einen 'neuen Himmel und eine neue Erde' geben? Wie die Militärs von heute Gott spielen und warum deshalb die „Planetare Bewegung für Mutter Erde“ entstanden ist“ (Can there be a 'new heaven and a new earth'? How today's military plays God,

and why that is the reason for the founding of the “Planetary Movement for Mother Earth”) Innsbruck, 29.10.2010. The lecture was followed by an icy silence of the 30 scientists attending. The university doesn’t seem to be the place out of which an awakening will come. The Ivory Tower and the embeddedness in existing coherences are being defended against everything that doesn’t fit in. Hear nothing, see and think nothing, let alone feel anything, this seems to be the motto.

- c) The participation at a peace-convention of unionists, left wing people, attac etc. in Berlin, for students in November was blocked:  
The topic of PBME was said to be too “specific“(!).

### -Publications

- a) The Empire Strikes Back. A Case of Organized „Hysteria“: Claudia von Werlhof and the Viennese Thought Police, in: CNS –Capitalism Nature Socialism, London/New York (Routledge) Vol. 21, Number 3, September 2010, pp. 102-106
- b) Luc Bürgin: Wetter-Terror (Weather Terror), in: Mysteries, Ausgabe 3/10, Zürich, pp. 44-49
- c) Mathias Behmann: Die "Kritische Patriarchatstheorie" - ein neuer Blick auf die Welt (Critical theory of Patriarchy -a new view on the world), in: UNIPress Nr. 7, Innsbruck 2010, pp. 9-11
- d) C. v. Werlhof: „Ausrufung der Planetaren Bewegung für Mutter Erde“ (Call for a Planetary Movement for Mother Earth), in: MatriaVal, Nr. 12, September 2010, Frankfurt, pp.10-17
- e) 1. Infobrief Planetare Bewegung für Mutter Erde (1. Information Letter of the PMME), in: MatriaVal, Nr. 12, September 2010, Frankfurt, pp. 18-20
- f) „Es geht buchstäblich um Aufklärung“ (There literally has to be an Enlightenment) Daniel Krcal interviewt C. v. Werlhof in: Rokko´s Adventures. Unabhängige Zeitschrift, Wien, Dezember 2010
- g) Interview for Festschrift and Film-Dokumentary of the Tirolean Environment Advocate about activities undertaken and to be undertaken in favour of Tirolean Nature (information given about the origins of the warming up of the Alps, geo-engineering and chemtrails, the Nagoya Uno-Moratorium, water-privatization in Tyrol, dangers of chemical treatment of the soil and the always broader infrastructure for tourism in Tyrol, Bertell and the Planetary Movement for Mother Earth, association with office in Tyrol), in November
- h) In print: Claudia v. Werlhof: The Failure of the “Modern World System” and the new Paradigm of the “Critical Theory of Patriarchy” - The “civilization of alchemists” as a “system of war”, Man. für S. Babones and Ch. Chase Dunn (Eds.): International Handbook of World –Systems Analysis, London/New York, Routledge 2011
- i) In the making: Book of our group after the congress “Wege in eine neue Zivilisation” of March 2010 in Innsbruck. Working title: „Kann es eine ´neue Erde´ geben? Zur ´Kritischen Patriarchatstheorie´ und der Praxis einer post-patriarchalen Zivilisation“ (Can there be a ´New Earth´? On Critical Theory of Patriarchy, and the Practice of a Post-Patriarchal Civilization). There will be a specific chapter with contributions on and about PMME.
- j) Going to print: Claudia von Werlhof: The Failure of Modern Civilization and the Struggle for a ´Deep´ Alternative – On “Critical Theory of Patriarchy” as a new Paradigm, Frankfurt a. M. 2011, Peter Lang European Publisher (Nr. 26 in series „Beiträge zur Dissidenz“, Contributions to Dissidence) with a chapter on “The

**Latest Challenge: “Military Alchemy” as Dystopia for Planet Earth.**

**- Sympathizers: at the time 500+ /current issues**

Individuals and groups throughout the world are reaching out to us and want to be added to the movement’s list. We receive a lot of material relevant to the topic that needs to be sighted and reviewed. In time this information will appear on our website [www.pbme-online.org](http://www.pbme-online.org).

Our international debate of the movement via <http://de.groups.yahoo.com/group/PlanetaryMovementForMotherEarth> can begin now. The first registrations have begun. Please register at [webmaster@pbme-online.org](mailto:webmaster@pbme-online.org) or [simone.woerer@student.uibk.ac.at](mailto:simone.woerer@student.uibk.ac.at).

A first charity concert with Konstantin Wecker scheduled for 2011 will not take place due to time constraints. However, the artist offers to contribute some of his songs to one of our events. An event such as a Festival for Mother Earth and a public introduction of PMME has not been finalized, there is a general plan in this direction though. Because of the Congress on Matriarchy in mid May in St. Gallen, this could take place before that in March or after the congress in July 2011. We ask for suggestions especially on the part of MatriaVal.

Through Maria Mies and Vandana Shiva we especially want to address women’s groups and individuals globally, e.g. the international network „Diverse Women for Diversity“. The addresses are being compiled; a jointly composed English text is at our disposal. In this way we would like to build on already existing work, especially in the field of Ecofeminism and would like to call for cooperation (Text auf [www.pbme-online.org](http://www.pbme-online.org)).

Furthermore addresses and names of groups as well of those of individuals are being collected, which could be interesting contacts for us e.g.: Michel Serres, France, who appeals for a right of action on behalf of nature advocating to her integrity; Prof. Meyl, Black Forest, who works with Tesla-technology for peaceful application; Dr. Rauni Kilde, Finland, former minister of health, who thinks that the volcanic eruption in Iceland of 2010 was induced artificially; Dr. Giuliana Conforto, Italy, who advocates a „feminist“ cosmology....

Rosalie Bertell is still ill at this time. We wish her a speedy recovery!!

**3.) NACHRICHTEN AUS ALLER WELT /INFORMATION FROM ALL OVER THE WORLD / NOTICIAS DE TODO EL MUNDO:**

**- UN-Moratorium against Geo-Engineering. Great success of the anti-Chemtrail-Movement!**

At the 10<sup>th</sup> biannual meeting of the United Nations Convention on Biological Diversity in Nagoya, Japan on 27.10.2010 our befriended ETC-Group of Pat Mooney has achieved that methods of Geo-Engineering are subject to a moratorium and the surveillance of the UN that is effective immediately until evidence has been established of its usefulness. The US delegation rejected this decision, 193 nations that had joined the UN Convention

**on Biological Diversity in 1992 approved. The moratorium now needs to be implemented. This does not seem to be the case yet.**

[http://acdn.france.free.fr/spip/breve.php3?id\\_breve=1086&lang=en](http://acdn.france.free.fr/spip/breve.php3?id_breve=1086&lang=en)

<http://www.etcgroup.org/en/node/5227> (English)

<http://www.etcgroup.org/en/node/5229> (French)

<http://www.enouranois.gr/english/indexmoratorium%20.htm>

**Washington Post article today at [prisonplanet.com](http://prisonplanet.com). Please read - in paragraph 4 of this link - "The prohibition does not apply to the United States, which has yet to RATIFY the convention." i.e. THERE IS NO SPRAYING MORATORIUM IN THIS COUNTRY.**

**News Release**

**29 October 2010**

**[www.etcgroup.org](http://www.etcgroup.org)**

### **Geoengineering Moratorium at UN Ministerial in Japan Risky Climate Techno-fixes Blocked**

**NAGOYA, Japan - In a landmark consensus decision, the 193-member UN Convention on Biological Diversity (CBD) will close its tenth biennial meeting with a de facto moratorium on geoengineering projects and experiments. "Any private or public experimentation or adventurism intended to manipulate the planetary thermostat will be in violation of this carefully crafted UN consensus," stated Silvia Ribeiro, Latin American Director of ETC Group.**

**The agreement, reached during the ministerial portion of the two-week meeting which included 110 environment ministers, asks governments to ensure that no geoengineering activities take place until risks to the environment and biodiversity and associated social, cultural and economic impacts have been appropriately considered. The CBD secretariat was also instructed to report back on various geoengineering proposals and potential intergovernmental regulatory measures.**

**The unusually strong consensus decision builds on the 2008 moratorium on ocean fertilization. That agreement, negotiated at COP 9 in Bonn, put the brakes on a litany of failed "experiments" - both public and private - to sequester atmospheric carbon dioxide in the oceans' depths by spreading nutrients on the sea surface. Since then, attention has turned to a range of futuristic proposals to block a percentage of solar radiation via large-scale interventions in the atmosphere, stratosphere and outer space that would alter global temperatures and precipitation patterns.**

**"This decision clearly places the governance of geoengineering in the United Nations where it belongs," said ETC Group Executive Director Pat Mooney. "This decision is a victory for common sense, and for precaution. It will not inhibit legitimate scientific research. Decisions on geoengineering cannot be made by small groups of scientists from a small group of countries that establish self-serving 'voluntary guidelines' on climate hacking. What little credibility such efforts may have had in some policy circles in the global North has been shattered by this decision. The UK Royal Society and its partners should cancel their Solar Radiation Management Governance Initiative and respect that the world's governments have collectively decided that future deliberations on geoengineering should take place in the UN, where all countries have a seat at the table and where civil society can watch and influence what they are doing."**

**Delegates in Nagoya have now clearly understood the potential threat that deployment - or even field testing - of geoengineering technologies poses to the protection of biodiversity. The decision was hammered out in long and difficult late night sessions of a "friends of the chair" group, attended by ETC Group, and adopted by the Working Group 1 Plenary on 27 October 2010. The Chair of the climate and biodiversity negotiations called the final text "a highly delicate compromise." All that remains to do now is gavel it through in the final plenary at 6 PM Friday (Nagoya time).**

**"The decision is not perfect," said Neth Dano of ETC Group Philippines. "Some delegations are understandably concerned that the interim definition of geoengineering is too narrow because it does not include Carbon Capture and Storage technologies. Before the next CBD meeting, there will be ample opportunity to consider these questions in more detail. But climate techno-fixes are now firmly on the UN agenda and will lead to important debates as the 20th anniversary of the Earth Summit approaches. A change of course is essential, and geoengineering is clearly not the way forward."**

**In Nagoya, Japan**

**Silvia Ribeiro: [silvia@etcgroup.org](mailto:silvia@etcgroup.org) (Mobile (local): + 81 90 5036 4659)**

**Neth Dano: [neth@etcgroup.org](mailto:neth@etcgroup.org) (Mobile: + 63-917-532-9369)?**

**In Montreal, Canada:**

**Diana Bronson: [diana@etcgroup.org](mailto:diana@etcgroup.org) (Mobile: +1-514-629-9236)**

**Jim Thomas: [jim@etcgroup.org](mailto:jim@etcgroup.org) (Mobile: +1-514-516-5759)**

**Note to Editors:**

**The full texts of the relevant decisions on geoengineering are copied below:**

**Under Climate Change and Biodiversity (UNEP/CBD/COP/10/L.36)**

**8. Invites Parties and other Governments, according to national circumstance and priorities, as well as relevant organizations and processes, to consider the guidance below on ways to conserve, sustainably use and restore biodiversity and ecosystem services while contributing to climate-change mitigation and adaptation:**

**....**

**(w) Ensure, in line and consistent with decision IX/16 C, on ocean fertilization and biodiversity and climate change, in the absence of science based, global, transparent and effective control and regulatory mechanisms for geo-engineering, and in accordance with the precautionary approach and Article 14 of the Convention, that no climate-**

related geo-engineering activities[1] that may affect biodiversity take place, until there is an adequate scientific basis on which to justify such activities and appropriate consideration of the associated risks for the environment and biodiversity and associated social, economic and cultural impacts, with the exception of small scale scientific research studies that would be conducted in a controlled setting in accordance with Article 3 of the Convention, and only if they are justified by the need to gather specific scientific data and are subject to a thorough prior assessment of the potential impacts on the environment;

[1] Without prejudice to future deliberations on the definition of geo-engineering activities, understanding that any technologies that deliberately reduce solar insolation or increase carbon sequestration from the atmosphere on a large scale that may affect biodiversity (excluding carbon capture and storage from fossil fuels when it captures carbon dioxide before it is released into the atmosphere) should be considered as forms of geo-engineering which are relevant to the Convention on Biological Diversity until a more precise definition can be developed. Noting that solar insolation is defined as a measure of solar radiation energy received on a given surface area in a given hour and that carbon sequestration is defined as the process of increasing the carbon content of a reservoir/pool other than the atmosphere.

**AND**

**9. Requests the Executive Secretary to:**

(o) Compile and synthesize available scientific information, and views and experiences of indigenous and local communities and other stakeholders, on the possible impacts of geo-engineering techniques on biodiversity and associated social, economic and cultural considerations, and options on definitions and understandings of climate-related geo-engineering relevant to the Convention on Biological Diversity and make it available for consideration at a meeting of the Subsidiary Body on Scientific, Technical and Technological Advice prior to the eleventh meeting of the Conference of the Parties;

(p) Taking into account the possible need for science based global, transparent and effective control and regulatory mechanisms, subject to the availability of financial resources, undertake a study on gaps in such existing mechanisms for climate-related geo-engineering relevant to the Convention on Biological Diversity, bearing in mind that such mechanisms may not be best placed under the Convention on Biological Diversity, for consideration by the Subsidiary Body on Scientific Technical and Technological Advice prior to a future meeting of the Conference of the Parties and to communicate the results to relevant organizations;

**Under New and Emerging Issues UNEP/CBD/COP/10/L.2 :**

**4. Invites Parties, other Governments and relevant organizations to submit information on synthetic biology and geo-engineering, for the consideration by the Subsidiary Body on Scientific, Technical and Technological Advice, in accordance with the procedures of decision IX/29, while applying the precautionary approach to the field release of synthetic life, cell or genome into the environment;**

**Under Marine and Coastal Biodiversity UNEP/CBD/COP/10/L.42**

**13 Reaffirming that the programme of work still corresponds to the global priorities, has been further strengthened through decisions VIII/21, VIII/22, VIII/24, and IX/20,**

but is not fully implemented, and therefore encourages Parties to continue to implement these programme elements, and endorses the following guidance, where applicable and in accordance with national capacity and circumstances, for enhanced implementation:

(e) Ensuring that no ocean fertilization takes place unless in accordance with decision IX/16 C and taking note of the report (UNEP/CBD/SBSTTA/14/INF/7) and development noted para 57 - 62;

#### **Impacts of ocean fertilization on marine and coastal biodiversity**

**57. Welcomes the report on compilation and synthesis of available scientific information on potential impacts of direct human-induced ocean fertilization on marine biodiversity (UNEP/CBD/SBSTTA/14/INF/7), which was prepared in collaboration with United Nations Environment Programme-World Conservation Monitoring Centre (UNEP-WCMC) and the International Maritime Organization in pursuance of paragraph 3 of decision IX/20;**

**58. Recalling the important decision IX/16 C on ocean fertilization, reaffirming the precautionary approach, recognizes that given the scientific uncertainty that exists, significant concern surrounds the potential intended and unintended impacts of large-scale ocean fertilization on marine ecosystem structure and function, including the sensitivity of species and habitats and the physiological changes induced by micro-nutrient and macro-nutrient additions to surface waters as well as the possibility of persistent alteration of an ecosystem, and requests Parties to implement decision IX/16 C;**

**59. Notes that the governing bodies under the London Convention and Protocol adopted in 2008 resolution LC-LP.1 (2008) on the regulation of ocean fertilization, in which Contracting Parties declared, inter alia, that given the present state of knowledge, ocean fertilization activities other than legitimate scientific research should not be allowed;**

**60. Recognizes the work under way within the context of the London Convention and London Protocol to contribute to the development of a regulatory mechanism referred to in decision IX/16 C, and invites Parties and other Governments to act in accordance with the Resolution LC-LP.2(2010) of the London Convention and Protocol ;**

**61. Notes that in order to provide reliable predictions on the potential adverse impacts on marine biodiversity of activities involving ocean fertilization, further work to enhance our knowledge and modelling of ocean biogeochemical processes is required, in accordance with decision IX/16 (c) and taking into account decision IX/20 and LC-LP.2 (2010);**

**62. Notes also that there is a pressing need for research to advance our understanding of marine ecosystem dynamics and the role of the ocean in the global carbon cycle; Geopiracy: The Case Against Geoengineering is a new publication by ETC Group that provides an overview of the issues involved.**

- On Nov. 8th the renowned London "Royal Society" held a meeting on the topic "Geo-Engineering taking control of our planet's climate" in order to present a civilian package of measures for the rescue of the planet. This contradicts the recent UN moratorium against procedures of Geo engineering that are being used, e.g. Chemtrails, without asking or informing the affected people.

A report from London:

Wed, 10 Nov 2010 18:11:03 +0200 [17:11:03 CET]

Von: [Wayne Hall <halval@otenet.gr>](mailto:halval@otenet.gr)  

Two news items, one from Claire on the Royal Society geoengineering conference in London yesterday and the day before. Claire says that they (she, Saskia and Andrew) were given the chance to speak about chemtrails already happening and to have personal exchanges with different participants. She says that their (i.e. her, Saskia's and Andrew's) feeling was that the presentations were at a low scientific level and were more like sermons than scientific papers. She says her impression was that the geoengineering advocates are trying to corrupt the Royal Society, whose stance was more detached, so that they were prepared to give everybody a hearing. She also says that the geoengineering promoters don't seem so sure of themselves. Hands off Mother Earth were present, and delivered some warnings about geoengineering. She also says that some presenters were clearly angry at the ETC group and angry about the moratorium.

The other news items is from Algo in Perth, Western Australia, who mentions a chance encounter he had with a second year law student who told him that the Perth law students are planning to screen "What in the World are they Spraying" publicly and then to send a delegation of 30 law students to the national capital Canberra, to demand answers from the Australian federal government.

**Betreff:** Upcoming E-vents About Which You May Want to Be Informed

o Tomorrow, 13<sup>th</sup>, yours truly will be on webcast *Truth Quest* with Melodee Hallett on Oracle Broadcasting at 1 PM EST/10 AM PST with Rosalind Peterson, lead West Coast **activist on military weapons testing/"geoengineering" and Deborah Dupre', lead reporter about the BP/US government-perpetrated terracide now being executed in the Gulf region.** Deborah has written an e-book on the WHO's false H1N1 pandemic last year, and has been reporting on how genetic alterations of bacteria in the Gulf could play into the NWO's/WHO's future plans.

o On Wednesday, November 10, 2010, a number of Washington State truth activists/leading research scientists confronted Washington State Health Secretary Mary Selecky over her permanently **increasing amounts of toxic mercury in vaccinations** -- particularly for pregnant women/small children --the public school clinics in which increasing numbers of vaccinations can be dispensed to our children and the Washington Vaccine Association corporation established by the State of Washington to allow all of this to be done with impunity early this year. This will be captured in a video/audio blog with text to be released soon;

o Another *Truth Quest* program, taped on October 16, 2010 will be distributed soon in which yours truly connects the dots between 9/11, "geoengineering", the Gulf terracide, vaccinations, the military weapons testing program and the Gates Foundation/Monsanto;

o A SCAN-TV program, taped on November 10, 2010, in which yours truly discusses *Campbell vs. the US* and many other actions in which she was involved since she left SCAN-TV in July of last year will be available soon;

o A blog, with possible video/audio, concerning the international Tesla-based alternative energy workshop conference occurring this coming weekend of November 13-14 with leading experts in attendance;

o A request for action to be released next week concerning one of the gravest injustices in the history of US immigration designed to break the back of government-generated Islamophobia. Islamophobia is being used to reinforce the official conspiracy theory of 9/11, which has then been used to justify everything else done since to take away our freedom. This request for action is similar to the one to stop the persecution of journalists in Europe initiated with some success this past summer.

**An:** [Claudia Von Werlhof <Claudia.Von-Werlhof@uibk.ac.at>](mailto:Claudia.Von-Werlhof@uibk.ac.at) 

**Betreff:** Re: Questions

Dear Claudia,

**I only ordered Planet Earth AFTER the Hambach Castle event, didn't know about it before that. I only knew Bertell's book NO IMMEDIATE DANGER from 1985....that book already knocked me over...I have also been active in environmental organizations ever since,...and I also try to introduce a female view, however, men have a hard time with that. .. There still are individuals - men and women – that feel a deep sense of responsibility and connection to mother earth and the cosmos. ... An over 80 year old man whom I had lent PLANET EARTH takes a lot of trouble to acquire further copies for distribution. Interest was great at the meeting last week. And you caused an avalanche with your intervention at the Hambach Castle. ...It is absolutely possible that this will lead to an éclat, it is seething all around.**

Yours,

Theresia

**Betreff:** Re: Conspiracy theory – or what?

Dear Henner,

**The tamperings that have been subject of discussion are so outrageous that the danger exists of them not wanted to be acknowledged or this even being impossible because there will be disbelief of the existence of these manipulations. In this case there will be a lack of intellectual and emotional dispute, therefore resistance won't take place to start with. Supercomfortable for the big hitters. The more secret they can keep all of this, including the centrally controlled media, the more dangerous for the individuals who will then put it on the table. The mob swoops down on the messenger, the message**

itself becomes diffuse and the reality of the information can flourish in obscurity until it is too late. ..I see this peril and it is necessary to oppose it by looking the facts in the eye and by asking questions. It is healthy to ask questions, not sick. That is Claudia's objective and nothing else other than to have a broad and implicit scientific taking into consideration and investigation. This wish is not to be seen in the proximity of paranoia, doing that would mean unintentionally operating in the ways of the ruthless big hitters.

Best regards to all of you,

**Wolfgang**

**Betreff:** HAARP as a weapon against humanity  
**Priorität:**  1

**Dear Mrs. Von Werlhof!**

**Please excuse me for not addressing you with your academic title; I would prefer to address you directly as an individual. It has to do with HAARP.**

**Personally I find your commitment and your courage in bringing light into this topic very impressive.**

**As an academic and therefore in a special position of observation of the lobbies and the media, this is a very honorable task that you have taken aboard...**

**For me the questioning about the game that is actually being played began with the manipulated events of 11.09.2001.**

**I am a flight captain on the model B747-400 and have therefore intensely dealt with the aircrafts of 11.09.2001.**

**Without wanting to get into details of the terrorist attacks, here everything took place in a very different manner than the public is still supposed to believe.**

**Alone, that there was never a fitting aircraft found in the Pentagon, how should it have gotten there.**

**These maneuvers cannot be flown being inexperienced.**

**Besides that, these aircrafts were "something else" than they were suggested to be...**

**Well, there was a terrorist attack from "within".**

**The exact course of events will surely never be revealed, however, it makes transparent that there was big time manipulation that still continues.**

**Well, I quickly recognized things that aren't coherent yet, just as with the HAARP project.**

**Through your research you have identified the problem very well, as I have seen in the movie on "NEXWORLD" TV.  
Your commitment is remarkable and I will also join the movement, the topic is too important, it is about our future as human beings.  
We have no more time to lose...**

**c) Konrad Dörr, Physicist**

regarding <http://www.pbme-online.org/>

hello dear Mrs. Prof. von Werlhof

I am very pleased that in our 'confusing' times there are such discerning women personalities like you.

Saw your TV segment on Nexworld.

Actually I am not shocked because I know too much about this topic.

However, indefinitely happy that slowly gaps seem to be emerging in this curtain of secrecy and conspiracy.

Here the term 'conspiracy' would finally be fitting without deductions!

I am an academic physicist with two more engineering disciplines and have been in research and development of large scale industry throughout my professional life.

I would like to request you to send me the details of the Planetary Movement in order to add my signature.

If there is any possibility to actively support the movement, also through creating awareness, I could very well imagine doing that.

Incidentally I was a specialist for NBC defense when I was 18 years old and from then on refused the military service with weapons.

With best regards,

Konrad W. Dörr

\* \* \*

Not only TESLA has been taken from us, if the drawers of the military and all the 'dependent scientists' open, whole mankind would make a quantum leap overnight.
