PETITION

PMME

PLANETARE BEWEGUNG FÜR MUTTER ERDE

PLANETARY MOVEMENT FOR MOTHER EARTH

MOVIMIENTO PLANETARIO PARA LA PACHAMAMA

www.pbme-online.org

Petition Signed by 20 Right Livelihood Laureates at their 30th Anniversary Conference in Bonn, Germany, 14-20 September 2010. Submitted for signing by Dr. Rosalie Bertell, Laureate year 1986.

It is morally reprehensible and an offense against humanity and the Earth to interfere with the normal function of the planetary system – to cause or enhance storms, hurricanes, tsunamis, monsoons, mud slides, draught, flooding, earth quakes or volcano eruptions.

In face of the fact that such technologies have been developed since decades and are probably being used to an always growing extent, we have founded the **PMME** on the 29th of May 2010 during the „International Goddess-Congress“ at Castle Hambach in Germany, counting with 300 first supporters. In summer 2010 we registered the **PMME** as a non-profit Association in Völs near Innsbruck, Austria, In the meantime we count with around 600 members worldwide.

Membership in the PMME is free

Objectives of the PMME:

- We want to publicly discuss information about globally existing destructive methods and practices, as well as those planned for the future, by the military, politics, the economy, the sciences, technology and research, and we want to promote the necessary changes in favour of “Mother Earth”.
- This way we want to encourage social relations worldwide that are co-operative with nature and life-friendly, and we want to stand up for the creation of such social relations everywhere.
- The association carries out its purpose through activities and events, public relations work, independent theoretical and practical research and the publication of relevant research results, as well as through networking with other groups and persons, and it encourages the foundation of similar local or regional initiatives worldwide.

We are interested in the advice of experts in all related fields.

Logo of the PMME:

„KYLDYSIN“ – Nordic Bear Goddess – Golden Woman, 2nd Mill.b.Ch. Bronze, found in Perm, Russia 976 – with a grim face since the wars against patriarchal invaders had begun.
